APPENDIX

1 DC-Iscte Researchers on 31-12-2022 (N=252) [49]

2 Scientific Production [53]

3 Research applications in 2022 by RG [98]

4 Funded and non-funded collective research projects in 2022 (overall) [103]

5 Individual research projects - scientific employment and research fellows in 2022 [108]

6 Funded PhD projects hosted by DC-Iscte [111]

7 Networks and scientific associations involving DC-Iscte researchers in 2022 [129]

8 Other Scientific Outputs: Awards [136]

Most Frequently Used Abbreviations:

CT | Cities and Territories (one of the three DINÂMIA'CET-Iscte Research Groups)

DC-Iscte | DINÂMIA'CET-Iscte

FCT | Fundação para a Ciência e a Tecnologia

GEC | Governance, Economy and Citizenry (one of the three DINÂMIA'CET-Iscte Research Groups)

IL | Innovation and Labour (one of the three DINÂMIA'CET-Iscte Research Groups)

ITL | Integrating thematic line(s)

RG | Research group

TL | Thematic line(s)

executive summary

- In 2022 DINÂMIA'CET-Iscte (DC-Iscte) recorded 114 integrated PhD researchers, 106 integrated researchers without PhD, and 32 collaborators, reaching a total of 252 members in its research team.
- Four new research contracts started in 2022 under the Individual and Institutional Scientific Employment Stimulus programme.
- Two new researchers were hired in the scope of the Strategic Plan 2018-2022 to improve the dynamization/articulation between research groups, the Unit's board and the Unit's Science Management Office (namely in the areas of information management and pre-award organization for project submissions).
- The Unit's Science Management Office was reinforced with a sixth member for Science Management.
- Research at DC-Iscte resulted in an increase in funded projects, with relevant themes of current economic, social and territorial interest. In 2022 there were about 46 research projects underway, 14 of which started this year, and 25 were completed, although the dissemination of their findings continued in the current year.
- 44 research project proposals were submitted to a variety of funding opportunities. The diversification of funding sources remains a strategic option and the data show that over 38% of project funding comes from FCT programmes, but 9% result from European Commission initiatives, 22% are contracted with municipalities and other national public sources, while the remaining 31% have different or self-funding sources.
- A considerable number of international networks (56) and the countries involved illustrates the ability of DC-Iscte researchers to diversify their geography and engage with foreign partners (notably Spain, France, United Kingdom, Italy, and many other countries). The consolidation of the team internationalisation process and of DC-Iscte as host institution complete this cross-border research endeavour (e.g., 22 visiting researchers).
- 40 scientific events and activities were planned under the three Research Groups, organized and co-organized by DC-Iscte
- 337 publications were produced in 2022 by DC-Iscte researchers, 81 of them indexed in WoS and/or Scopus. 11 Books and 77 book chapters are also included in these figures targeting wide audiences, especially in Portuguese language.

· The DC-Iscte online journal, **CIDADES, Comunidades e Territórios** (Q2 Scimago Journal Ranking 2021 for Urban Studies), has increased submissions on varying subjects, with special issues covering topical subjects as housing, migration, and gender studies.

· The **Working Paper** series continues to be a source of dissemination of ongoing research despite the slight decrease in 2022 (4), comparatively to 2021 (7).

· The **Portuguese Journal of Social Science** continues to be supported by DC-Iscte and also serving as source of outputs dissemination.

· The year of 2022 was marked by a greater proximity to society, albeit traditional research activities remained very active. 226 papers were presented in scientific events along the three research groups, with special emphasis on international events (137).

· DC-Iscte has implemented two tools to systematize information on relevant themes in Portuguese society. The Youth Employment Observatory (YEO) created a repository data on the youth labour market, notably youth unemployment, quality of youth employment, and youth employment policies. The YEO has been involved in the White Paper More and Better Jobs for Young People initiatives, under the high patronage of the President of the Republic; and LXHabidata, a database platform that gathers a permanently updated housing data for the municipalities and parishes of the Lisbon Metropolitan Area.

· The European Research Council (ERC) team has organized and participated in five collaboratories with territorial actors and entities.

1

Introduction

This Scientific Report presents the research activity developed at the DINAMIA'CET-Iscte (DC-Iscte), Centre for the Study of Socioeconomic Change and the Territory, during the year of 2022. This annual Report provides information on the three major activities related to the academic duties, namely the scientific research, education and training, and links to the society. Beforehand, it should be noted that the year of 2022 was the beginning of the post-pandemic context and the activities developed so far show a certain return to the normality. However, some of the pandemic features persist, notably the teleworking, online or hybrid scientific and non-scientific meetings.

The DC-Iscte members maintain the continue DNA of the centre, being engaged in inter, multi and transdisciplinary research. This is reflected in completed, ongoing and new research activities. Researchers have been involved in a set of projects and dissemination activities on a broad range of subjects, some of them topical themes. The team associated with European Research Council (ERC) grant, directed by Ricardo Agarez, has organised and participated in collaboratories with different actors and entities of specific territories.

The new projects, started in 2022, illustrate somehow the ability to obtain funding, especially, from different sources. In addition, there are ongoing and new individual projects, under the Individual and Institutional Scientific Employment Stimulus. Furthermore, the DC-Iscte research team remained strongly committed to apply to various calls for submitting applications for funding through research projects, both national and internationally, in line with the operational mid-term objectives.

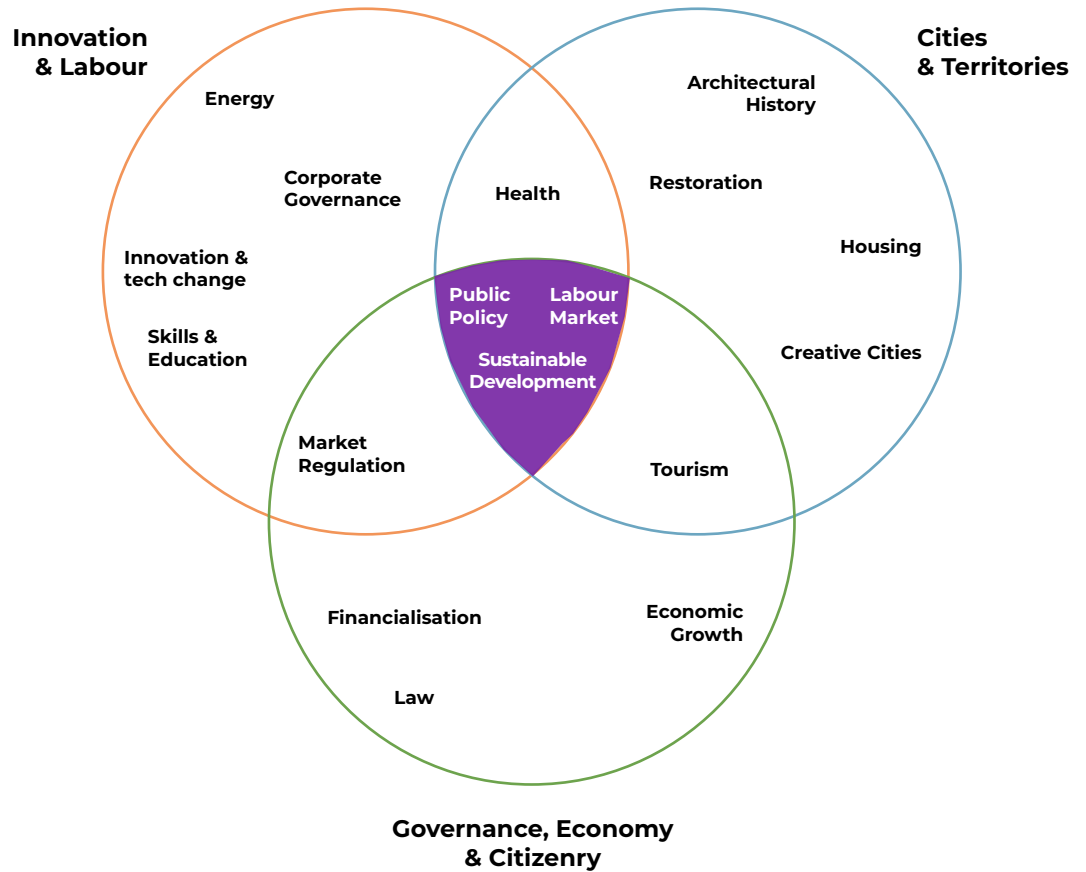

The Centre is committed to specific support for research and in the scope of the Strategic Plan 2018-2022, hired two new researchers to make that support more powerful. The goal is to increase the interaction among researchers and groups; to inform researchers about calls for proposals; and to help them to prepare proposals and create teams among members. In addition, efforts were made to ensure information management and monitoring more efficient with the work of management officers.

The researchers have acknowledged the importance to disseminate outputs across the range of publication types. While the indexed journals have been the major dissemination channel, the books, especially in Portuguese language, represent tools to disseminate pieces of research and influence public policies. A sample of the research carried out was published in the book *Entre Transições: Retrospectivas – Transversalidades – Perspetivas*, coordinated by researchers Maria Assunção Gato and Pierre Guibentif, which clusters the research presented at the Conference held in June 2021 at Iscte, to celebrate the DC-Iscte anniversary.

The Figure 1 illustrates the main topics explored by each Research Group and the overlapping across those groups. It includes the themes explored and published across varying types of publications. As can be seen, three subjects, public policies, labour market, and sustainable development, are common to all research groups, while others reflect specificities of each group. The communalities illustrate that similar subjects are being examined through specific theoretical and methodological options. This allows a more comprehensive view of those outcomes.

Figure 1

The main topics in publications in 2022

The subjects examined by DC-researchers have attracted the media's interest. Therefore, the press, TV and radio have become a crucial channel of dissemination of the DC-Iscte activities. This activity has been intensified with Youth Employment Observatory and LXHabidata. The link with the society has been thus reinforced, in addition to the interaction with policy makers and social actors.

The support to education and training activities follows the same pattern. The DC-Iscte continues to be the host centre for PhD and master students, not only for Iscte courses, but also for foreign students.

At the middle of 2022, the new board of directors took office, in addition to the new Scientific Committee members. The priority of the new elected governance bodies is the creation of regulations to respond to powers delegated to the research centres and to organize the activities regarding the forthcoming assessment of DC-Iscte. Furthermore, the management office was reinforced with additional staff to support the members and the increasing activities related to projects, PhD students and collaborators. The ERC project is also demanding and requires a proper attention to the rules and procedures designed by the EU.

2

DINAMIA'CET-Iscte scientific identity and organization

2.1 DINÂMIA'CET-Iscte and its Scientific Identity

DINÂMIA'CET – Iscte (DC-Iscte), Centre for the Study of Socioeconomic Change and Territory, is an Iscte interdisciplinary research unit in social and human sciences, which combines fundamental and applied research on relevant economic, social and cultural topics.

We perform advanced international and comparative research, framed by a sustainable development approach, while pledging to increase knowledge about dynamics and changes of Portuguese society.

We seek to contribute to the understanding of the contemporary world and to the design of the future through the analysis of contexts, actors and consequences of change, encompassing a particular focus on public policy and institutional frameworks, on an analytical and a normative level.

DC-Iscte mobilizes an array of theoretical and methodological resources guided by a common core issue. What is at stake is to capture the nature of the dynamics underlying socioeconomic and territorial change, their genesis in the inter-play between collective public and private actors operating in different domains, as well as their impact, notably in spatial terms.

Researchers at DC-Iscte pay particular attention to individual action (choices, expectations, creative insights, emotions, etc.) and to institutional endeavours stemming from states as well as sub-, inter- and supranational bodies to moderate, boost or restrain this action.

Research focused on the evaluation of the consequences of such institutional regulation is also based on a reflexive analysis of our own domain of activity – scientific research, its relationships with its context and the changes it goes through, in line with DC-Iscte's strategic objective to promote the self-reflexivity of its researchers.

2.2 Organization and activities

DINÂMIA'CET-Iscte gathers researchers from a wide range of academic backgrounds (economics, sociology, law, architecture, regional and urban planning, anthropology, geography, management, quantitative methods, etc.). It is organized in three research groups (RG), each one divided into thematic lines.

INNOVATION AND LABOR IL

Keywords: science and technological innovation; sustainable transition; digital transition; skills; quality in work and employment; youth employment.

COORDINATORS

Isabel Salavisa

Fátima Suleman

THEMATIC LINES

TL 1: Innovation (*Inovação*) | **Coord:** Isabel Salavisa

Keywords: technological innovation; climate and ecological transition; energy; technologies for sustainability; research & innovation policies; decarbonisation of economic activities.

TL 2: Labour (*Trabalho*) | **Coord:** Fátima Suleman

Keywords: labour market and segmentation; youth employment; higher education and training; quality of work and employment; digital work and regulation; climate transition and employment.

CITIES AND TERRITORIES CT

Keywords: contemporary socioeconomic environmental and cultural change; territorial dynamics; local/regional development policies; territorial planning and governance; sustainable development; reflective action-research; food system.

COORDINATORS

Pedro Costa

Teresa Costa Pinto

THEMATIC LINES

TL 1: Creativity, Culture and Territory (*Criatividade, Cultura e Território*) | **Coord:** Pedro Costa

Keywords: territorially embedded creative/cultural dynamics; creative districts/ ecosystems; artistic intervention; art and public space; cultural participation; cultural/creative tourism.

TL 2: Representations and Discourse on Architecture and Territory (*Representações e Discurso sobre Arquitetura e Território*) | **Coord:** Paulo Tormenta Pinto

Keywords: representation and discourse in architecture; architecture/urbanism history; architectural/urbanism theory; architectural practice and teaching; heritage.

TL 3: Ways of Living, Society and Architectural Culture (*Modos de Vida, Sociedade e Cultura Arquitetónica*) | **Coord:** Ana Vaz Milheiro

Keywords: architectural culture and history; housing; ways of living; colonial/post-colonial perspectives; violence and control through housing; middle class mass housing.

TL 4: Recompositions, Metropolitan Change, and Housing (*Recomposições, Mudanças Metropolitanas e Habitação*) | **Coord:** Teresa Costa Pinto, Maria Assunção Gato and Sandra Marques Pereira

Keywords: contemporary housing systems; socio-economic recompositions; metropolitan dynamics of change; care; precarious housing.

TL 5: Territorial Governance, Spatial Planning and Socio-spatial Intervention (*Governança Territorial, Planeamento Espacial e Intervenção Sócio-espacial*) | **Coord:** Maria Fátima Ferreira

Keywords: territorial governance; formal and informal spatial planning processes; participation; citizen's and social movements; public policies and territorial and social impacts assessment; local/regional/urban development policies; food systems and transition paths.

TL 6: Urban Morphology and Sustainability (*Morfologia Urbana e Sustentabilidade*) | **Coord:** Teresa Marat-Mendes

Keywords: sustainable transitions; urban metabolism; urban morphology; urban food systems; urban-rural links; design for sustainable neighborhood systems; urban habitats; future cities.

GOVERNANCE, ECONOMY AND CITIZENRY **GEC**

Keywords: regulation; markets; human rights; reflexivity; science and society.

COORDINATORS

Ana Costa

Maria Eduarda Gonçalves

THEMATIC LINES

TL 1: Human Rights, Markets and Governance Challenges (*Direitos Humanos, Mercados e Desafios da Governação*) | **Coord:** Ana Costa

Keywords: markets; economic and social regulation; human rights; citizenship; social rights

TL 2: Reflexivity, Communication, and Social Responsibility of Science (*Reflexividade, Comunicação e Responsabilidade Social da Ciência*) | **Coord:** Carolina Henriques, Nuno Dias, Patrícia André, Pierre Guibentif

Keywords: social reflexivity; social responsibility of science; science communication; science and society

Consistency across the three RG's is promoted through Integrating Thematic Lines (ITL) set to boost synergies among the groups and to take greater advantage of the interdisciplinarity that characterizes DC-Iscte:

(i) Innovation and Transition to Sustainable Societies

(ii) Regulatory and Governance Challenges for Complex Societies

(iii) Creative and Participative Lives in Empowered Societies

They are conceived as flexible, likely to be adapted, on the middle run, both to the social demand and to research currently carried out by DC-Iscte. ITLs have no members, only a team of designated facilitators (dinamizadores) and a general coordination.

Facilitators:

Alexandra Saraiva

Andrea Pavoni

Inês Gameiro

Nuno Bento

Patrícia Bento de Almeida

Paulo Marques

General coordination:

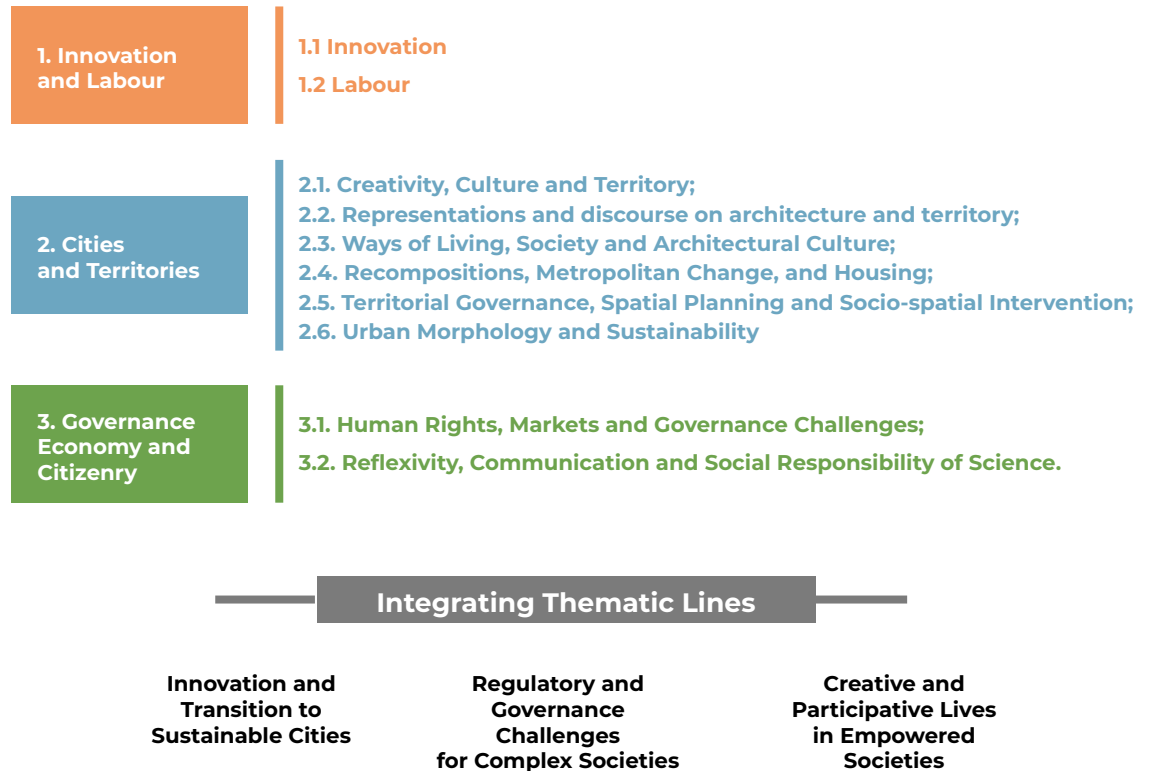

Maria Assunção Gato

Pierre Guibentif

According to the guidelines of the unit management, the coordinators and facilitators issued a working plan: the promotion of the ITLs, in particular through adequate information on the DC-Iscte website; and the preparation of the commemorative event that took place in June 2021, celebrating the 10 years of DC as an organic unit of Iscte, 30 years of DC-Iscte, and 40 years of CET.

Both the papers presented at this conference and the thematic discussions held with the contribution of external invited discussants aimed to reinforce the internal reflection around the challenges posed by social change in its multiple dimensions. These materials were subsequently further developed and were published as a book, launched in 2022. An underlying objective of the ITLs as thematic and reflective structures is to enhance future applications to competitive international calls.

Figure 2
Research Groups and Thematic Lines

Activities taking place at DC-Iscte combine research with service provision to the community, and advanced training (masters and PhD programmes). The research unit is invested in the articulation between teaching and research, according to international higher education standards. It nurtures the transfer of scientific knowledge through seminars, conferences and publications. It also promotes internal debate and collegial co-operation in order to favour theoretical and methodological cross-fertilization between its different projects, and to foster collective learning and capacity for organizational adaptation and innovation. Its members share the belief that public universities should produce knowledge that may underpin the public debate, namely the debate about public policy design and implementation.

DC-Iscte publishes an online journal, *CIDADES, Comunidades e Territórios*, and a *Working Paper* series, both peer-reviewed. It also participates in publishing *Portuguese Journal of Social Science* and the journal *Passagens*, in collaboration with the Architecture PhD programme. A close-knit network of partnerships supports these activities with other national and international research units, public agencies and civil society players.

DC-Iscte is funded and evaluated by the Fundação para a Ciência e a Tecnologia (FCT), the Portuguese Research Council, having been rated Very Good in the most recent evaluation process.

3

Objectives accomplishment: general overview

3.1 Objectives established for 2022

The objectives established for 2022 were framed within the global strategy for 2018-2022¹ (DC-Iscte mid-term Strategic Plan, in the meantime considered the backbone for the funding programme from FCT for 2019-2023).

DC-Iscte strategic goals have been designed based on its legacy of theoretical and empirical research, and accumulated experience of co-operation with other national and international research units, as well as a history of collaboration with public entities and civil society since it was founded.

Generally, major goals defined in its mid-term Strategic Plan (which was submitted to FCT within the framework of the assessment process and funding application for the period of 2018-2022) bind DC-Iscte to research work on cross-cutting and comprehensive topics addressing the key dynamics of contemporary socio-economic and territorial change and the inherent challenges for regulation and governance; to the mobilization of its researchers for innovation in research and communication methods, for intra- and interdisciplinary dialogue, and for strengthened co-operation with their national, foreign and international counterparts in research, as well as to openness to society.

This general strategic framework for the period of 2018-2022 is therefore assumed as the structural background structure for the 2022's activity report and, similarly to the last few years, three complementary layers of objectives were contemplated:

- A. Main scientific objectives pursued by the Unit;
- B. Main mid-term operative goals linked to the Unit's Strategic Plan;
- C. Specific goals for 2022.

A summary of the objectives concerning each of these complementary layers (as they were presented in DC-Iscte Action Plan for 2022) is presented as follows.

¹ A brief overview of the main strategic goals and features for the period 2018-2022 can be consulted at DC-Iscte web-site:
https://0dd103e0-7abc-4f8a-bc7c-7dc59185c4a9.filesusr.com/ugd/4151a5_48589301a99842beac76d255db5c24a8.pdf

**MAIN
SCIENTIFIC
OBJECTIVES
PURSUED
BY THE UNIT**

Scientific goals inherent to the mission and collective scientific identity of DC-Iscte and its research programmes

Specific scientific objectives pursued by each RG and their respective Thematic Lines² (cf. sections 6.1; 6.2 and 6.3.)

Objectives pursued by the 10 thematic lines (within 3 RG's)

Objectives pursued by the three (3) integrating Thematic Lines (transversal to RG's)

² Thematic Lines are assumed as mid-term research streamlines that can comprise several research programmes, materialized in different research projects, both collective and individual.

MAIN SCIENTIFIC OBJECTIVES PURSUED BY THE UNIT'S STRATEGIC PROGRAMME

PRAGMATIC OBJECTIVES LINKED TO THE DEVELOPMENT OF DC-ISCTE UNDERLYING 2022 ACTIVITIES

Many of these objectives were already identified and pursued in preceding years, featured in the Strategic Plan 2018-2022.

a) Further consolidation of cross-cutting work and collaborative practices among researchers, RG's and efforts made within the ITL's

b) Increase in research project contracts exploring opportunities to diversify funding sources and to strengthen the submission of proposals to European funding programmes, as well as applied projects for public and private entities. Seeking leadership in these proposals within consortia involving other research units whenever possible

c) Increase in publications, preferably in indexed peer-reviewed journals and books with international dissemination

d) Improvement of the Unit's role as a platform for attracting and hosting visitors, supporting internationalization initiatives and developing research networks

e) Strengthening the relation between research and advanced training through several initiatives linked to PhD and Master programmes, seminar cycles, Unit seminars, exhibitions of students' work in specific courses, etc.

f) Increasing science communication and dissemination of research results in national and international academic events, reaching broader audiences by improving communication to non-academic publics and by the active involvement of stakeholders and civil society in the research projects' communication design

g) Improving requirements for individual research development plans at the Unit and enhancement of its attractiveness to young high-potential researchers, extending support to researchers for the development of their activities, including publication and dissemination

h) Reinforcement of the science management office, particularly in the area of financial management, and improving specialized professionalization and enhanced skills in the various domains required for an expanding research unit

i) Improving relational and organizational conditions (research conditions, careers; full/part-time, generational issues, etc.)

SPECIFIC GOALS FOR 2022

ACTIVITIES TO BOOST RESEARCH

Setting conditions and regulations for new incentive support mechanisms for research (e.g. internationalization of young researchers, awards for social impact of research, incentive for open access publication, internationalization through international research projects)

Development of research networks and improvement of the Unit's role as a platform for hosting visitors and supporting internationalization initiatives

Enhancement of DC-Iscte attractiveness to young high-potential researchers

Increase in research projects contracts, exploring the diversification of research funding opportunities (e.g. European funding programmes, applied projects for public and private institutions)

Recruitment of 2 assistant researchers for DC-Iscte, (under the Sociodigital Lab institutional commitments)

ACTIVITIES FOR CROSS-CUTTING WORK CONSOLIDATION AND COLLABORATIVE PRACTICES AMONG RESEARCHERS AND BETWEEN RESEARCH GROUPS

Organization and realization of the 6th edition of the DC-Iscte Workshop

Preparation and launch of the eBook "Entre Transições – Retrospectivas, Transversalidades, Perspetivas"

One dedicated research position hired

Fostering the involvement of researchers in the thematic lines of the Socio-digital lab for Public Policies of Iscte

SPECIFIC GOALS FOR 2022

ACTIVITIES TO STRENGTHEN THE RELATION BETWEEN RESEARCH AND ADVANCED TRAINING

- Promoting publication among young researchers
- Support to initiatives and participation of young researchers in scientific events (e.g. conferences, seminars, exhibitions showing work developed by students)
- Organization of seminar cycles in several PhD and Master programmes and presentation of theses' results in unit's seminars
- Applying for funding initiatives targeted at young researchers (e.g. summer schools)
- Further development of CCT journal and its indexation improvement
- Enhancement of the Working Paper series
- Setting up the re-launch of Passagens Journal

ACTIVITIES TO PROMOTE NEW WAYS OF COLLECTING, PRODUCING AND DISSEMINATING SCIENTIFIC DATA

- Consolidation of the Youth Labour Employment Observatory
- Increase in publications (e.g. indexed peer-reviewed journals, books with international dissemination), increase in the support to dissemination activities
- Better funding conditions for integrated PhD and non-PhD researchers
- Reaching broader audiences and overall society, both by improving communication of research results to non-academic audiences and by the active involvement of stakeholders and civil society in the projects' communication design
- Development and enhancement of the LxHabidata platform
- Foster the setting of an Observatory dedicated to housing issues, based on the Lxhabidata platform and its potentialities for dedicated research

SPECIFIC GOALS FOR 2022

ACTIVITIES FOR INTERNAL HUMAN RESOURCES MANAGEMENT

Definition of the conditions, regulations and mechanisms for the hiring of the research-dedicated human resources (grants and contracts)

Consolidation and strengthening of the science management office, improving specialized professionalization and enhancing skills at the several domains required to a growing research unit

Reorganization of the science management office and tasks

ACTIVITIES TO ASSESS THE UNIT'S ACTIVITY

Development of a monitoring system for the social and academic impacts of the produced research

Improvement of the internal information system for monitoring the research unit's activity, including a comprehensive, updated and user-friendly database with the scientific activities of all members

One dedicated research position hired

ACTIVITIES FOR INTERNAL COMMUNICATION AND UNIT'S REQUESTS

Website updates and other communication materials

DC-Iscte Newsletter

DC-Iscte Scientific Report and Action Plan

Implementation and dissemination of DC-Iscte ethical principles

ACTIVITIES FOR INSTITUTIONAL REQUESTS

Scientific and financial reports to Iscte central services

Scientific and financial reports to FCT

Sociodigital Lab for Public Policies

3.2 Main achievements during 2022

2022 was a year of reopening since the restrictions imposed to control the pandemic were lifted. This had positive impacts in terms of academic activity. There are, therefore, important achievements and challenges to be highlighted.

In general, the Action Plan for 2022 and the research unit scientific goals that are inherent to its mission and collective scientific identity were accomplished. This is reflected in the Unit's work across all Research Groups, its Thematic Lines and Integrating Thematic Lines. At this level, a significant consolidation work took place, in order to harness the interdisciplinary identity of DC-Iscte and leverage it in a more robust way, namely:

- **To improve inter-knowledge among researchers;**
- **To promote internal networks of exchange, work and collaboration;**
- **To strengthen a group identity and interdisciplinary dialogues;**
- **To deepen interests and commitments around scientific projects, in order to proceed with the strategic planning intended for the unit.**

Below some results per RG demonstrating their main achievements are summarized:

INNOVATION AND LABOUR

In 2022 the number of projects (totalling 12) and funding raised by IL researchers continued to grow with two (2) new internationally funded projects, adding to the six (6) ongoing projects funded by FCT, two (2) projects with European funding and one (1) with another national funding. The Youth Employment Observatory joined this set of projects, since it was launched in October 2021. The number of articles published in journals indexed in WoS and Scopus was a bit lower (20) than that of 2021 (25). The chapters published in edited books, however, increased (24 in 2022, against 15 in 2021). The total number of publications decreased slightly (79 in 2022, against 81 in 2021). The number of events organized by this research group has grown substantially this year (11), and the paper presentations at scientific events were 78. In terms of advanced training, two (2) PhD theses and 44 Master theses were concluded within the scope of this RG, and 18 PhD projects were underway.

MAIN ACHIEVEMENTS 2022

- 2 NEW INTERNATIONAL FUNDED
PROJECTS (6 ONGOING PROJETS)

- CONSOLIDATION OF THE YOUTH
EMPLOYMENT OBSERVATORY

- GROWTH OF NUMBER OF SCIENTIFIC
EVENTS ORGANIZED

- 2 PHD THESES CONCLUDED

- 44 MASTER THESES CONCLUDED

CITIES AND TERRITORIES

In 2022 nine (9) new research projects were added to the 18 already in progress through various funding sources. Among these new projects, four (4) have national funding via FCT, three (3) are funded by municipal councils and one (1) is sponsored by another national entity. To this set the LXHabidata platform was added, funded by the DC-Iscte Strategic Plan, since it was launched in 2021. It is also important to mention the ERC Grant in progress under this RG. Equally noteworthy is the coordination of a Cost Action Network (European Cooperation in Science & Technology) in progress. Regarding publications, there was a slight improvement in the total number (190 publications) compared to the previous year (189). There were 36 articles indexed in WoS and Scopus, 33 book chapters and 129 paper presentations in scientific events. In terms of advanced training, five (5) PhD thesis and 19 Master theses were concluded within the scope of this RG, and 95 PhD projects were underway.

MAIN ACHIEVEMENTS 2022

- 9 NEW FUNDED PROJETS (18
ONGOING PROJETS)

- CONSOLIDATION OF THE
LXHABIDATA PLATFORM

- ERC GRANT AND COST ACTION
NETWORK IN PROGRESS

- GROWTH OF PUBLICATIONS

- 5 PHD THESES CONCLUDED

- 19 MASTER THESES CONCLUDED

GOVERNANCE, ECONOMY AND CITIZENRY

– In 2022, four (4) new research projects were started under this RG, funded by national entities, adding to the four (4) funded projects already underway. The total number of publications increased compared to the previous year (66 in 2022/ 56 in 2021). The number of articles indexed in WoS and Scopus was 19 (18 in 2022), and the number of book chapters increased more significantly (19 in 2022/ 10 in 2021). There were 24 paper presentations in scientific events (national and international). In terms of advanced training, one (1) PhD thesis and 52 Master theses were completed, while 22 PhD projects were in progress.

MAIN ACHIEVEMENTS 2022

- 4 NEW FUNDED PROJETS (8
ONGOING PROJETS)

- GROWTH OF PUBLICATIONS

- 1 PHD THESES CONCLUDED

- 52 MASTER THESES CONCLUDED

- 22 PHD PROJECTS IN PROGRESS

4

Team

4.1 Researchers (full team per Research Group)

There was an overall consolidation of the team in recent years, both across research groups and categories. By the end of 2022, DC-Iscte reached a total of 252³ members in its research team, distributed among the different categories and RG as follows:

- 114 integrated PhD researchers (IL=26; CT=64; GEC=24);
- 106 integrated researchers without PhD (IL= 11; CT=82; GEC=13);
- 32 collaborators (IL=6; CT=20; GEC=6).

Chart 1

Evolution of Researchers per category

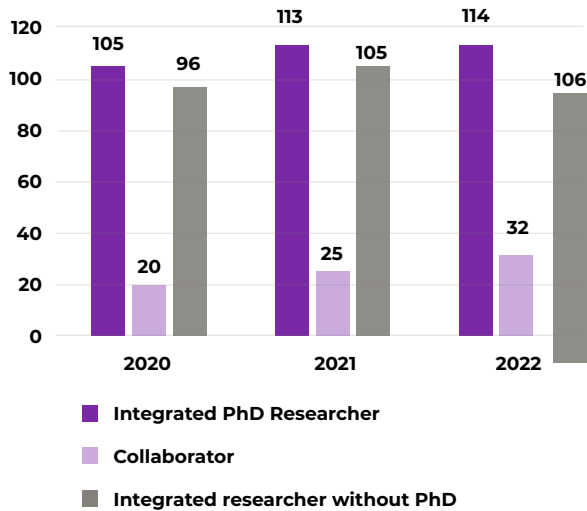

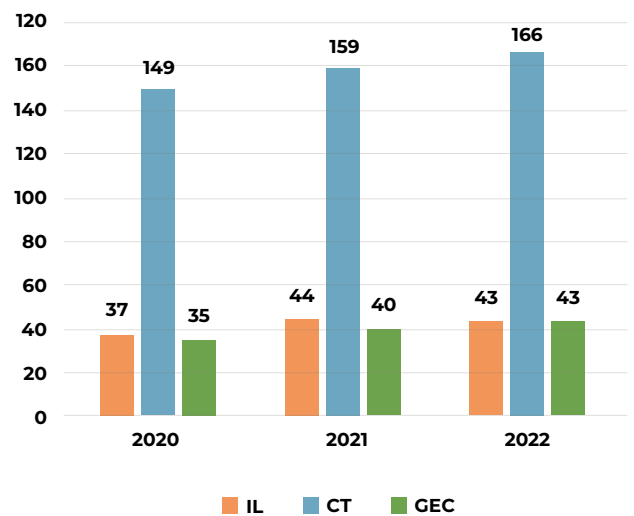

Chart 2

Evolution of Researchers per Research Group

³ This number does not match the listings provided to FCT due to different criteria and timelines. Appendix 1 contains a table with the DC-Iscte researchers' team by RG and by category.

Chart 3
Integrated PhD Researchers
by employment link (2022)

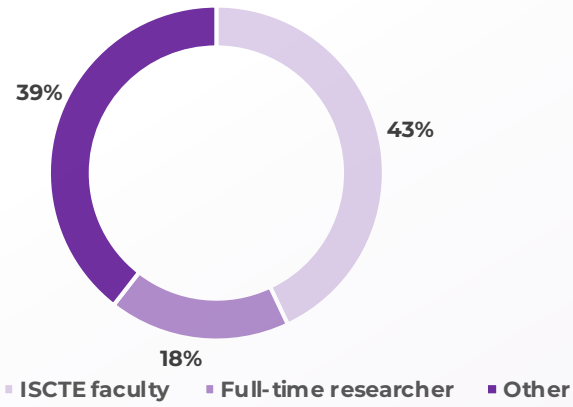

Chart 4
Researchers by gender (2022)

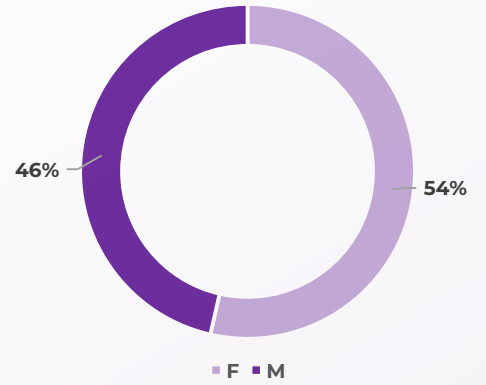

Chart 5
Integrated PhD Researchers scientific
domain (2022)

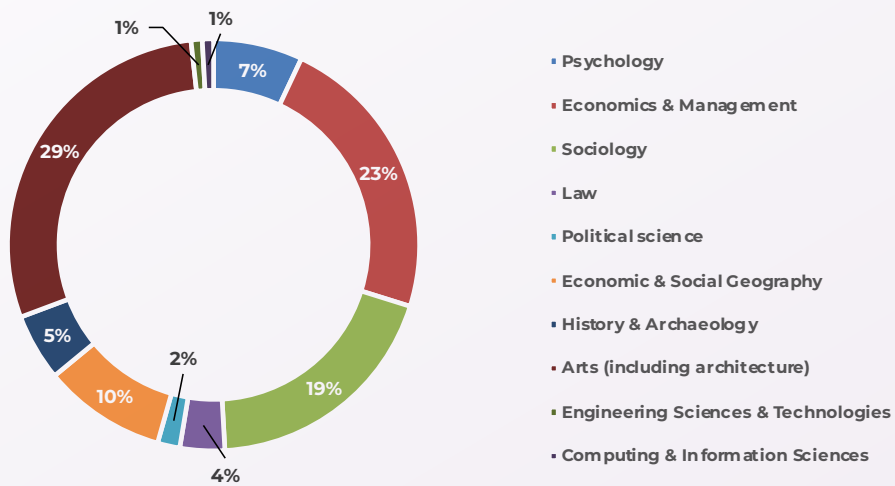

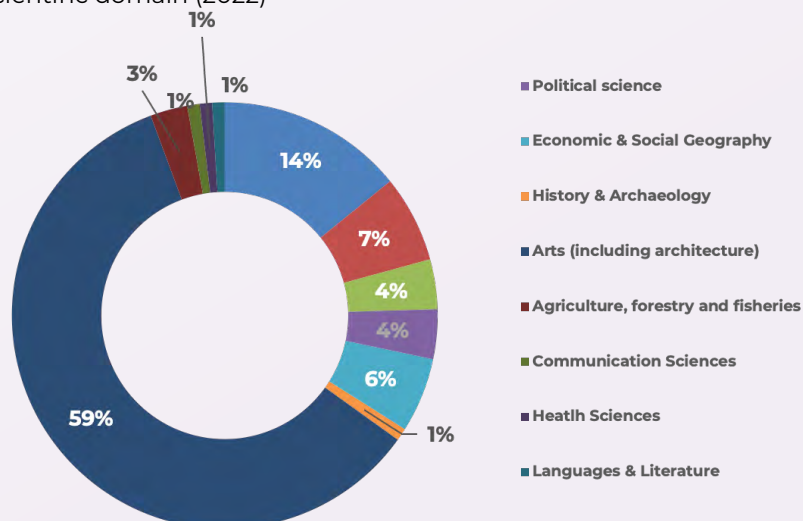

Chart 6
Integrated Researchers without PhD
scientific domain (2022)

An interdisciplinary team, aiming for inter (and trans-) disciplinarity

While architecture, economics/management and sociology are the scientific domains of over two thirds of PhD researchers (in terms of their latest academic degree), several other training fields provide background for interdisciplinary research. Architecture weighs even more when we consider integrated researchers without a PhD, in terms of their initial training. This is very much a reflection of the proportion of PhD students in architectural courses in our team (see Appendix 6)

Along with the 252 researchers who were part of our team in 2022, DC hosted 22 invited researchers from 13 nationalities (see Appendix 1).

4.2 Science management office

Science Manager S&T Prospection / Pre-Award and Project Management	Maria João Machado
Science Manager PhD Programmes Support and Project Management	Mafalda Pifano
Science Manager Project Management	Marlon dos Santos
Science Manager Support to Researchers and Events Management, Unit Secretariat	Maria José Rodrigues
Science Manager Publication and Information Management	Mariana Leite Braga
Science Manager Design & Communication	Bruno Vasconcelos

4.3 Governance Bodies

BOARD OF DIRECTORS

Jan – Jun 2022

Pedro Costa, director
Maria Assunção Gato, subdirector
Paulo Tormenta Pinto, subdirector
Pierre Guibentif, extended directive board
Ana Rita Cruz, extended directive board

Jun – Dec 2022

Paulo Tormenta Pinto, director
Maria Assunção Gato, subdirector
Fátima Suleman, subdirector
Pierre Guibentif, extended directive board
Ana Brandão, extended directive board

SCIENTIFIC COMMITTEE

Jan – Jun 2022

Helena Lopes, Nuno Bento, Paula André and Sérgio Lagoa

Jun – Dec 2022

Ana Costa, Nuno Bento, Paula André and Paulo Marques

All DC-Iscte PhD integrated researchers compose the Scientific Council, totalling 114 members in 2022.

Highlights for the year

January

Seminar
"Como construir um município onde todos possam envelhecer bem?", inaugural seminar of the project "Envelhecer em Cascais"
Casa de Histórias Paula Rego, Cascais

March

Seminar
"A Reforma Laboral em Espanha de 2021 - A contratação de jovens, em especial o Contrato de Formação"
Iscte

April

The 6th Edition of the Workshop
"Dinâmicas Socioeconómicas e Territoriais Contemporâneas".
Iscte

Conference
"Políticas públicas de emprego dirigidas aos jovens".
In the scope of the Youth Employment Observatory activity.
Iscte

Book presentation
"Entre Transições: Retrospectivas – Transversalidades – Perspetivas"
Resulting from the homonymous conference held in June 2021 at Iscte.
Iscte

May

International conference
"HINTS - Heritage Inclusive Tourism Symposium"
Polytechnic Institute of Viseu

Colóquio
"Arquitetura dos Territórios Metropolitanos Contemporâneos"
CIUL - Centro de Informação Urbana de Lisboa

June

Conference
"Empregabilidade e Emprego dos Graduados: Os Desafios da Expansão do Ensino Superior".
Final conference of the project BRIGHET - Bringing together Higher Education, Training, and Job Quality
Iscte

Book Presentation
"Resilience in a Digital Age. Global Challenges in Organisations and Society"
Iscte

Seminar Cycle
"Jornadas de Estudos Urbanos"
An established dedicated dissemination event linked to Urban Studies PhD programme.
Iscte

September

Conference
"The potential of renewable energy technologies for industrial transformation: the case of marine energies"
Final conference of the project OceanTrans - Ocean energy technologies transformative potential.
Iscte

Winter School
"Laboratório de Espaços Partilhados"
Maputo

Summer School
"Political Economy of the European Peripheries"
Avis

The Global Meeting on Law & Society "Race, Reckoning and Remedy"
The Global Meeting was attended by 2500 participants in loco and 1500 online
Iscte

Change in the DC-Iscte Governing Bodies

July

International Conference
"KISMIF 'DIY Cultures, Sustainability and Artistic Ecosystems'"
Faculdade de Letras da Universidade do Porto

October

Inaugural seminar
"Care(4)Housing - A care through design approach to address housing precariousness in Portugal"
Iscte

Presentation
"Impact-WEB-GIS Platform"
Linked to the project "ImpactPP – Inovação na avaliação de impacto em políticas públicas"
Iscte

November

International Conference
"1st SocioDigital Lab 2022 Conference"
"Digital Transformation in Times of Crisis"
Iscte

International Conference
"Having a Voice: Peripheries and Participation at the heart of Cultural Policies"
Iscte

International Congress
"III Luso-Spanish International Congress on Social Security Law"
Iscte

December

Conference
"Operações SAAL em Lisboa"
Iscte

The Youth Employment Observatory was involved in the White Paper More and Better Jobs for Young People, under the high patronage of the President of the Republic.

Book Presentation
"Atlas of the Food System: challenges for a sustainable transition of the Lisbon Region"
Iscte

Platform Presentation
"Development and application of the Culture.Impacts.DIY toolkit"
Online

6

Main facts and outputs

A quantitative overview of the main facts and outputs from research that was undertaken throughout the year is available in the appendix section of this report, namely the synthesis of indicators by research groups: Innovation and Labour, Cities and Territories and Governance Economy and Citizenry. We now present a summary of the key findings based on these figures.

6.1. Research activities: applications, projects, funding, forfeited overheads

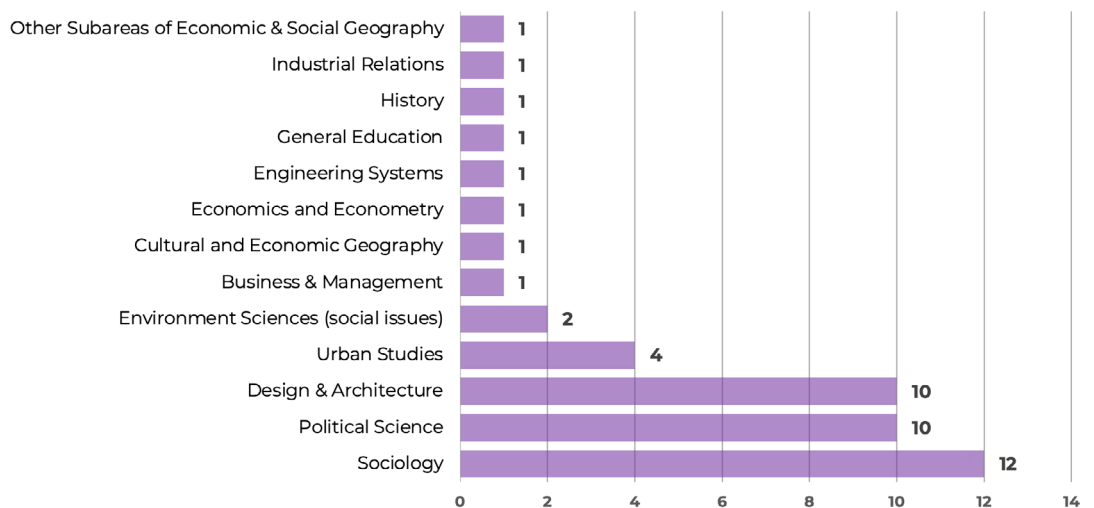

44 collective project applications were completed throughout the year, 29,5% of which to international funding entities and 29,5% to national funding other than FCT, which received 41% of proposals. Along with previous year successful applications, this resulted in 14 new projects starting in 2022 (for details, see Appendix 4).

Throughout the year, 46 funded and non-funded collective research projects, with different funding sources, were undergoing with the leadership or contribution of DC-Iscte team members. Over a third of project funding (38%) comes from FCT programmes, 9% result from European Commission initiatives, 22% are contracted with municipalities and other national public sources, while the remaining 31% have different or self-funding sources.

In terms of scientific subject areas, and adapting FCT categories to all projects regardless of their context, our interdisciplinary nature comes through, although social issues, public policies and architecture prevail.

Chart 7

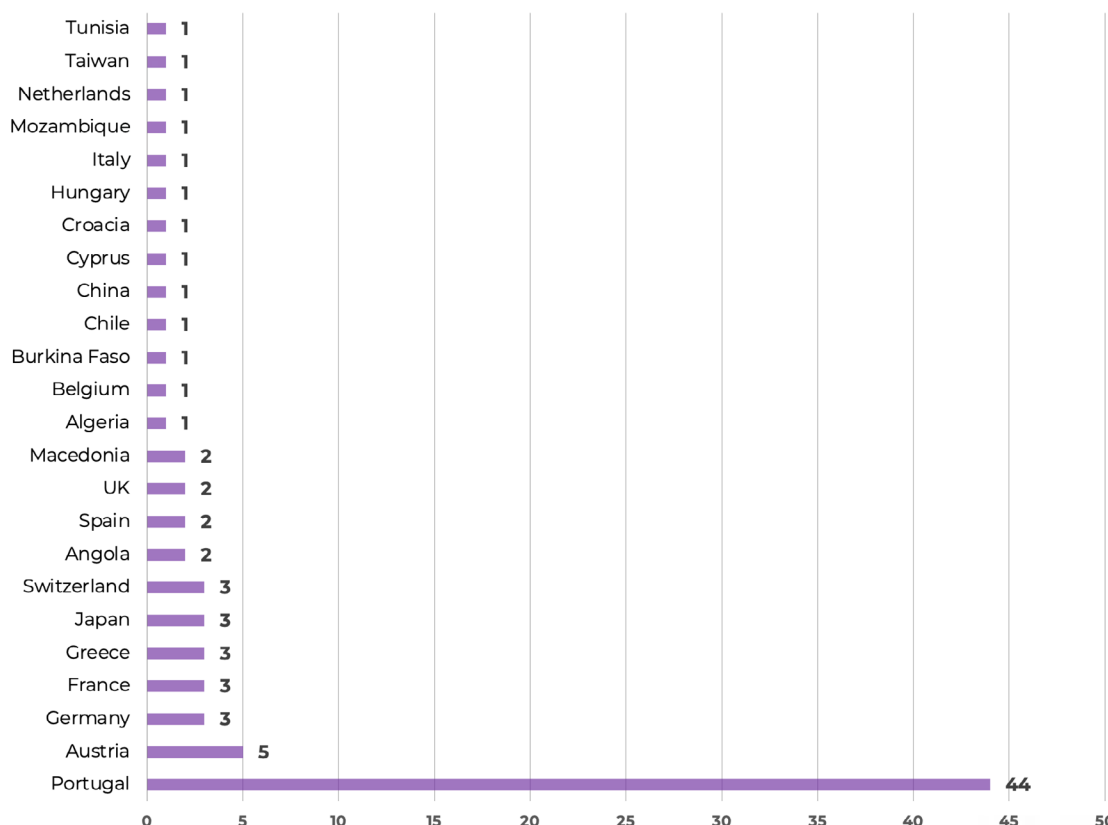

Collective projects subject areas (2022)

Our overarching approach towards research is also reflected in terms of external contributors to DC-Iscte projects. Not only does a third of funding result from international sources (see table 3) but also a great number of partners, arriving from 23 countries (48,2% of all project partners), as shown on the next chart.

Chart 8

Collective research projects partners (countries) in 2022

Regarding the financial contribution of project funding to the Unit's activity, we may have a look at how forfeited overheads have advanced in recent years.

The next table provides more detailed and evolving information on the projects' budget.

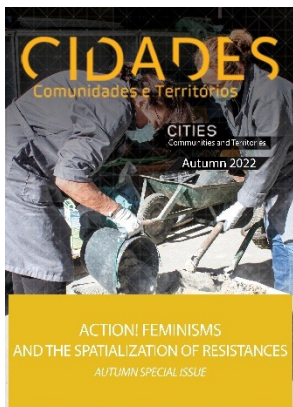

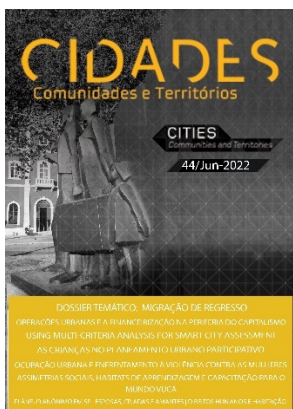

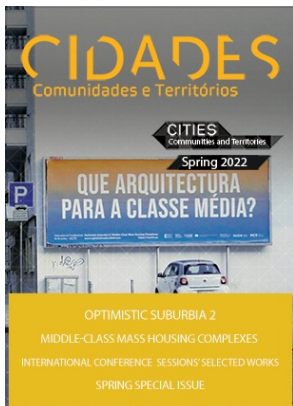

Table 3

Number of projects and budget per year (2020-2022)

		2020		2021		2022	
		#	Forfeited value (€)	#	Forfeited value (€)	#	Forfeited value (€)
NATIONAL		27	423.806	26	696 929,00 €	636 285,00 €	
Public	FCT	19	418 586,00 €	12	479 856,00 €	17	542 635,00 €
	Other	4	0,00 €	6	181 323,00 €	12	80 694,00 €
Private		4	5 220,00 €	8	35 750,00 €	1	12 956,00 €
INTERNATIONAL		9	273.583	8	594 826,00 €	635 995,00 €	
CE		4	145 915,00 €	4	577 452,00 €	5	590 732,00 €
Other programmes		3	127 668,00 €	0	0,00 €	4	29 306,00 €
Private		2	0,00 €	4	17 374,00 €	1	15 957,00 €
Own Funding			NA	0	NA	2	NA
NON-FUNDED		3	NA	4	NA	4	NA

Funding sources' incentive to the professionalization of research unfolded in higher figures for individual project applications. The 5th edition of FCT's Stimulus of Scientific Employment resulted in 16 applications with DC-Iscte as host institution. Along with the 2 successful applications to this programme, DC-Iscte recruited an additional 2 researchers supported by strategic and programmatic funding, reinforcing a team of now 14 full-time PhD researchers (see appendix 5 for details).

Indirect funding to junior researchers was also provided mainly by FCT, whose individual grant programme resulted in 10 applications stating DC-Iscte as host institution, 4 of which were successful. By the end of 2022, DC-Iscte had 25 PhD students with FCT individual grants and an additional 4 with programmatic funding.

6.2. Research results: publication, events, networks, articulation with advanced training

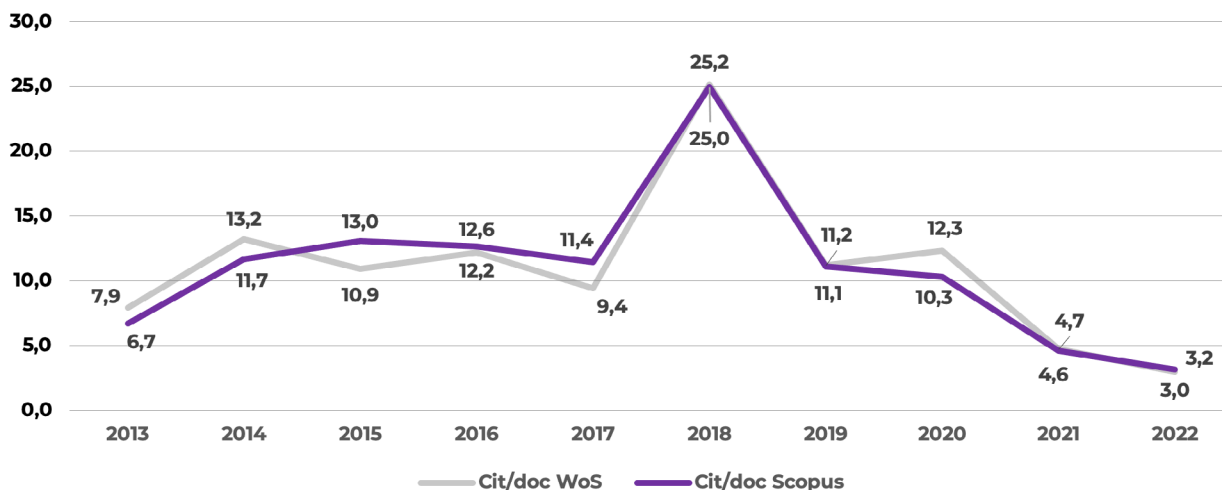

DC-Iscte continues to foster quality publication of research results and, while general figures have slightly dropped from last year, there was an improvement in published articles: 118 articles, 45 proceedings, 37 books, 77 chapters, 60 other publications (see Appendix 2 for detailed information).

The impact of publication: citations and DC-Iscte publication

The data on citations regarding DC-Iscte publication was retrieved from WoS/Clarivate and Scopus databases, which means that only publication indexed in those databases is featured – which represents 24,3% of the overall publication for 2022, for instance. Since this is an indicator that best provides a long-term perspective of the impact of edited scientific production, we chose to look at the past 10 years. There was an overall growth trend with particular emphasis towards 2018, while more recent work has not yet been referred.

Chart 9

Citation average per cited publications (WoS and Scopus) 2013-2022

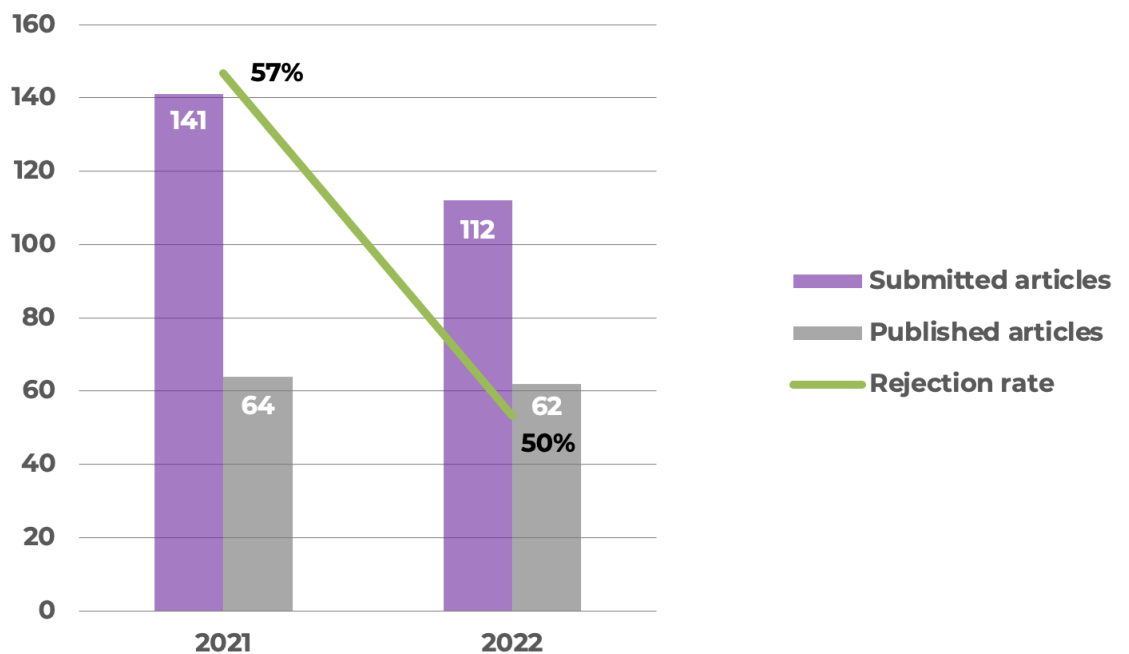

DC-Iscte publications

Following international and FCT guidelines, DC-Iscte has been progressively increasing its presence in open access domains. *CIDADES, Comunidades e Territórios (CCT)* maintained its Q2 position in the Scimago Journal Ranking for Urban Studies, being listed in Web of Science's Scopus citation index, SciELO, Open Edition, among others. In its thematic area, there are only two Portuguese journals with Q2 classification (none with Q1), and CCT is the only one that does not charge publication fees. Spring and Autumn special issues have now become commonplace, adding to the two regular issues including thematic dossiers. All Working Papers are published on the DC-Iscte website and Iscte Repository and materials resulting from public funding are also uploaded on to this Repository, which is integrated in RCAAP - Repositório Científico de Acesso Aberto de Portugal, or on alternative open access domains, in line with national and European guidelines.

Chart 10 illustrates the consolidation in published articles at *CIDADES, Comunidades e Territórios*, with a slight decrease of rejections as a consequence of stricter criteria for initial appraisal ('desk reject').

Chart 10

Submissions, publication and rejections rates at CCT (2021-2022)

Charts 11 and 12 illustrate the growing scope of DC-Iscte publications available through Iscte Repository, in geographical and chronological terms. 2022 records show a steady increase in download figures. International audiences still account for almost two thirds of all downloaded material.

Chart 11

Iscte Repository: DC-Iscte documents downloads per year

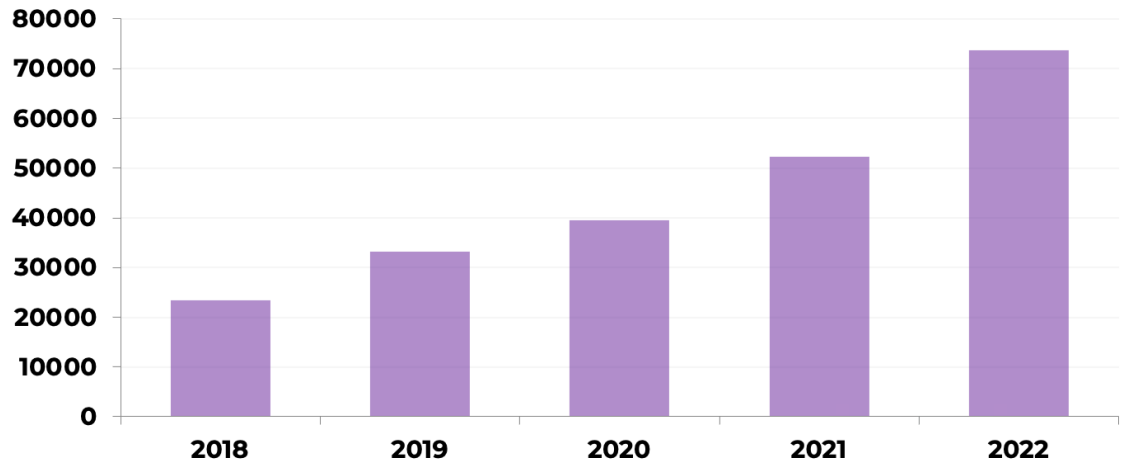

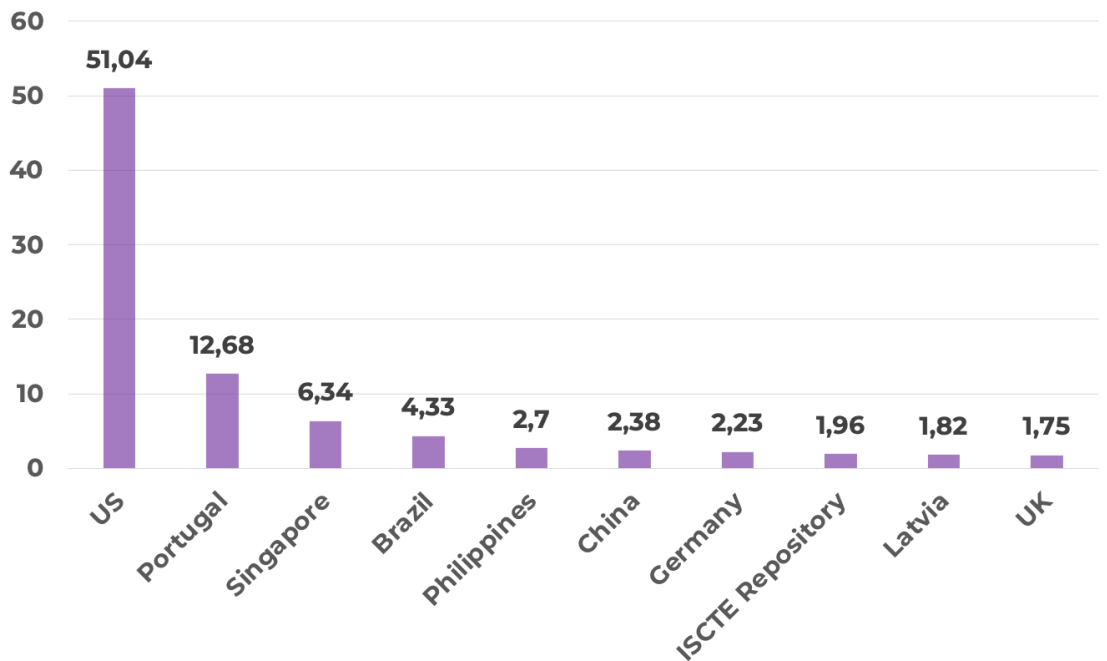

Chart 12.

Iscte Repository:
DC-Iscte documents downloads top 10 countries in 2022 (%)

Internationalization of research is also translated into countries where DC-Iscte researchers published in 2022, with 56,8% of publication occurring on international journals, proceedings and other foreign domains.

Similarly, after recent years of limited travel due to Covid-19, international conferences and similar events have once again become meeting points for scientific discussion. DC-Iscte researchers presented 226 papers in 24 different countries in 2022.

Chart 13
Countries where DC-Iscte
researchers published in
2022

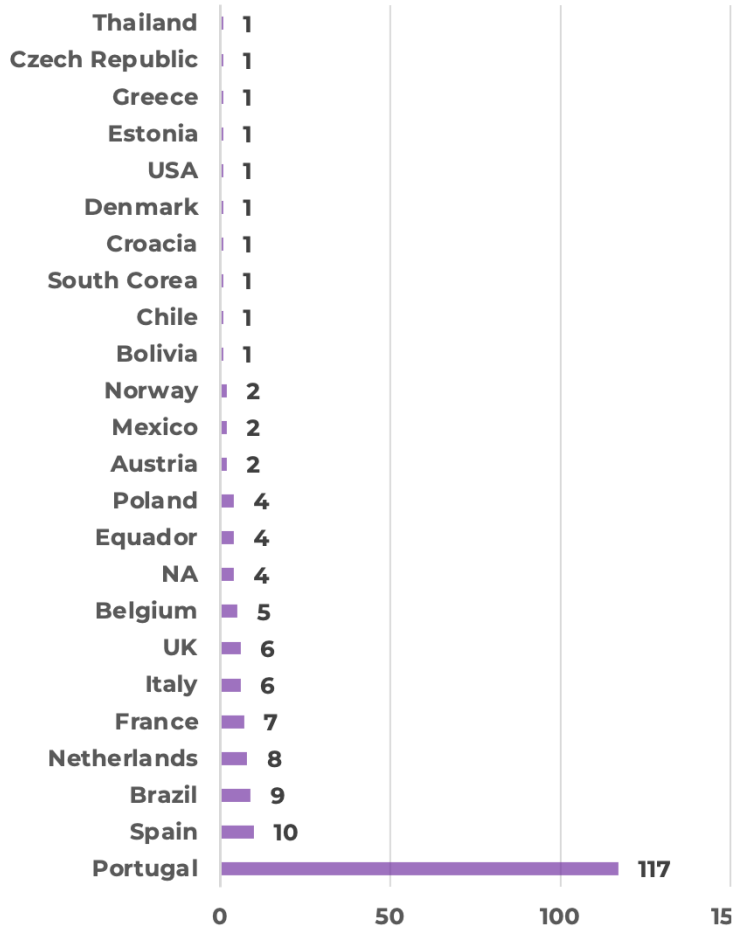

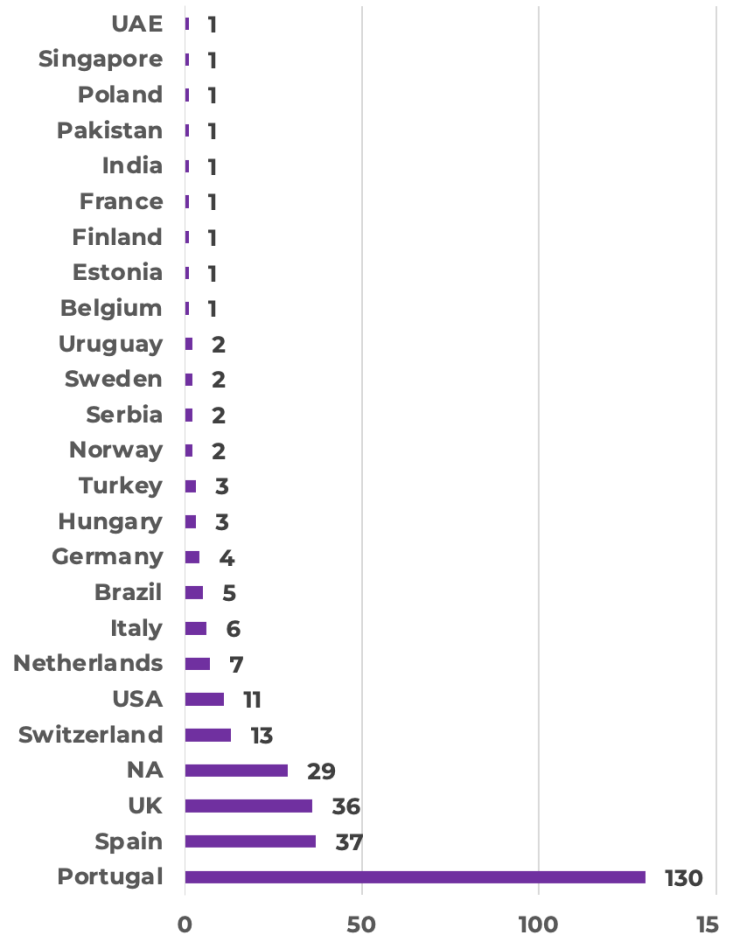

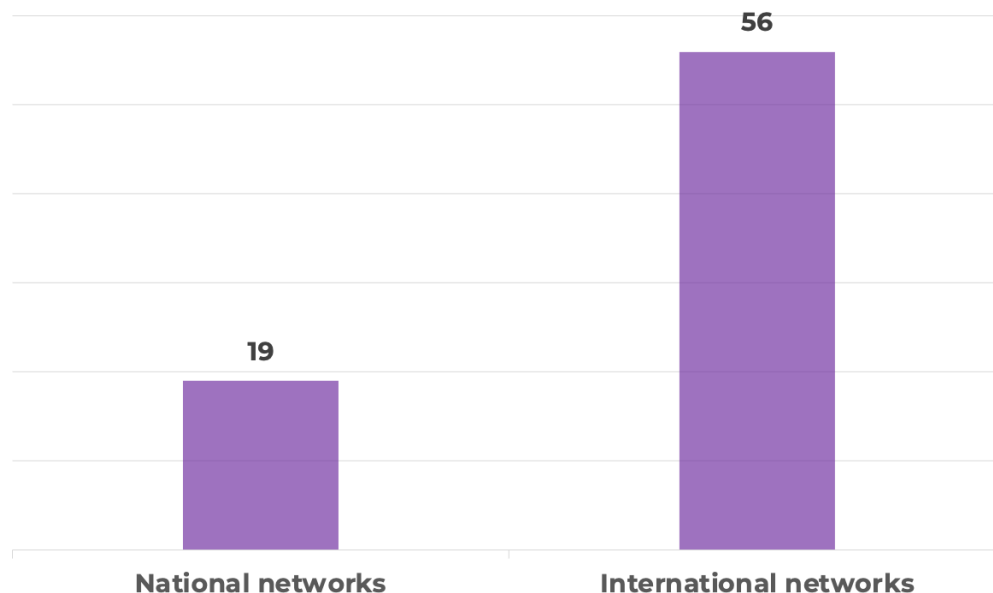

Chart 14
Countries where DC-Iscte
researchers presented
papers in 2022

These figures are both the result and instigators of many international networks sustained by our researchers, as depicted in the next chart.

Chart 15
National and international research networks in 2022

Scientific discussion is highly promoted on site at Iscte, through both national and international events taking place throughout the year – 37 in total. This included 3 international conferences, 1 international congress, 1 international symposium, 1 summer school + 1 winter school (see [Highlights for the year](#) for additional details)

DC-Iscte is now in charge of managing 2 PhD programmes (Political Economy and Urban Studies) jointly organized with other teaching institutions, which will hopefully increase de articulation between advanced training and research.

Table 4
Involvement of DC-Iscte in advanced training (14)

Advanced Training Programmes	Role
PhD in Political Economy	Co-hosting research unit
PhD in Urban Studies	Co-hosting research unit
PhD in Architecture of Contemporary Metropolitan Territories	Co-hosting research unit
PhD in Economics	Co-hosting research unit
Master in Urban Studies	Co-hosting research unit
Master in Economics	Co-hosting research unit
Master in Economics and Public Policy	Hosting research unit
Master in Monetary and Financial Economics	Hosting research unit
Master in Political Economy	Hosting research unit
Master in Social and Solidarity Economics	Hosting research unit

Master in Human Resources Development Policies	Hosting research unit

7

Youth Employment Observatory and LXHabidata

Youth Employment Observatory

<https://obsempregojoovem.com>

The Youth Employment Observatory (YEO) was launched in 2021 and is coordinated by Professor Fátima Suleman and Professor Paulo Marques. It is part of the DC-Iscte and is funded by FCT - Foundation for Science and Technology. The YEO aims to create a repository of content and research dedicated exclusively to the youth labour market, taking advantage of synergies and spaces for interaction between DC-Iscte's research projects dedicated to studying labour.

The Observatory focuses on three areas of study - youth unemployment, quality of youth employment, and labour market policies directed at young labour market participants. The project's central objective is to produce publications that highly impact society, namely reports and policy briefs, and to provide regularly updated key data.

In 2022, the Observatory consolidated the response to this objective through the production of policy briefs, based on the various studies conducted throughout the year, and by updating the key indicators on its website. New contacts and partnerships with external entities were also established and the Observatory saw its visibility grow, both in the media and in its social networks.

In terms of publications, the following should be mentioned:

- Policy brief 'The reform of professional Higher Education in Portugal: trends and challenges for the youth labour market' (February 2022);
- Policy brief 'When those who work do not achieve: social protection in youth unemployment, between flexibility and insecurity' (April 2022);
- Chapter 'Employ' in the IPPS annual report 'The State of the Nation and Public Policies 2022: Recovering in Uncertain Times' (July 2022);
- Policy brief 'Has the Portuguese labour market become more knowledge-intensive?' (October 2022);
- Article 'Young people in the non-metallic mineral products industries: link between education, employment and the economy between 2015 and 2019' in the magazine, *Keramica*, from APICER (December 2022);
- White Paper 'More and Better Jobs for Young People', with the high sponsorship of the Presidency of the Republic. White Paper produced in partnership with the José Neves Foundation and the Lisbon office of the International Labour Organisation (December 2022).

In addition to the publications, 2022 was marked by several and relevant activities for the consolidation of the Observatory, namely the participation of several team members in multiple conferences, meetings, seminars, at local, regional and

national level. Among them we highlight the participation in the event 'Public Policies in Debate: Analysis of the OECD Labour Force Statistics Report', an IPPS-Iscte initiative; public consultation event on the White Paper 'More and Better Jobs for Young People', attended by the President of the Republic; participation in the round table 'Young People's School to Work Transition in Southern Countries: Trends, Developments and the Policy Response', an initiative of the Tr@ck-IN project; the presentation of the White Paper 'More and Better Jobs for Young People' at the Labour session in the Ministry of Labour, Solidarity and Social Security, following the invitation of the Secretary of State for Labour, Miguel Fontes; and the official launch of the White Paper 'More and Better Jobs for Young People', with the high sponsorship of the Presidency of the Republic.

The impact on society has also been reflected through participation in the debates generated in the public sphere through interviews, comments, and opinions (7 participations in television programmes, 10 interviews/reportages in printed media, 4 radio interviews). These participations have been remarkably successful, given how the media have integrated and explored several of the Observatory's themes and contributions.

The work carried out in 2022 ensured the necessary continuity of the Observatory's activity, while also enabling the team to find new lines of development.

LxHabidata

<https://lxhabidata.iscte-iul.pt/>

LXHabidata is a DC-Iscte project and initiative, designed in the wake of the conference 'Lisbon, which future?', held at Iscte in April 2017, where the explosion of housing prices, the tourism boom, and local accommodation were discussed. Coordinated by researchers Sandra Marques Pereira and Madalena Matos, this is a platform of housing data permanently updated for the municipalities and parishes of the Lisbon Metropolitan Area. It is designed for all those who are interested in the subject of housing: citizens, public policy makers, and practitioners, researchers, promoters, etc.

During 2022, LxHabidata carried out the following activities:

1. Updating (with different periodicities - monthly, quarterly, half-yearly and yearly) the set of indicators of the platform:

- Housing Market (prices, transactions, contracts, banking valuation)
- Construction/ Rehabilitation (licenses, completed works)
- Public Housing (social housing, affordable housing)
- Access to housing (effort rates - rent, affordability - purchase, monthly charges - rent and purchase)
- Housing Conditions
- Short-term rentals

2. Creation of new indicators, namely:

- Census data by subsection
- Census data from 2011 and 2021, including rates of change:
 - *Housing stock/buildings (age of construction, refurbishment needs, number of floors, number of dwellings, dwellings, tenure, form of occupancy, floor area, parking)*
 - *Population: Pop. Resident/Motive of Residence/Residence 2019/Pop. Foreigner / Household Size*

A paper was also published in an indexed journal:

Pereira, SM, Carreira, M. and Matos, M (2023) Covid-19 and Short-Term Rental in Portugal: Unpredictable Futures, *Revista Portuguesa de Estudos Regionais*, n° 63 2023, 93-108

Multiple analyses of various indicators were carried out by the team or by students oriented for that purpose by team members in the scope of some courses (e.g., Urbanism II of the Integrated Master of Architecture of Iscte).

8

Main social impacts of DC-Iscte research in 2022

The research developed in 2022 at DC-Iscte, materialized either in collective projects or in different types of publications, is aligned with the UN Sustainable Development Goals, as demonstrated by the charts 16 and 17.

Chart 16

Collective projects aligned with UN Sustainable Development Goals

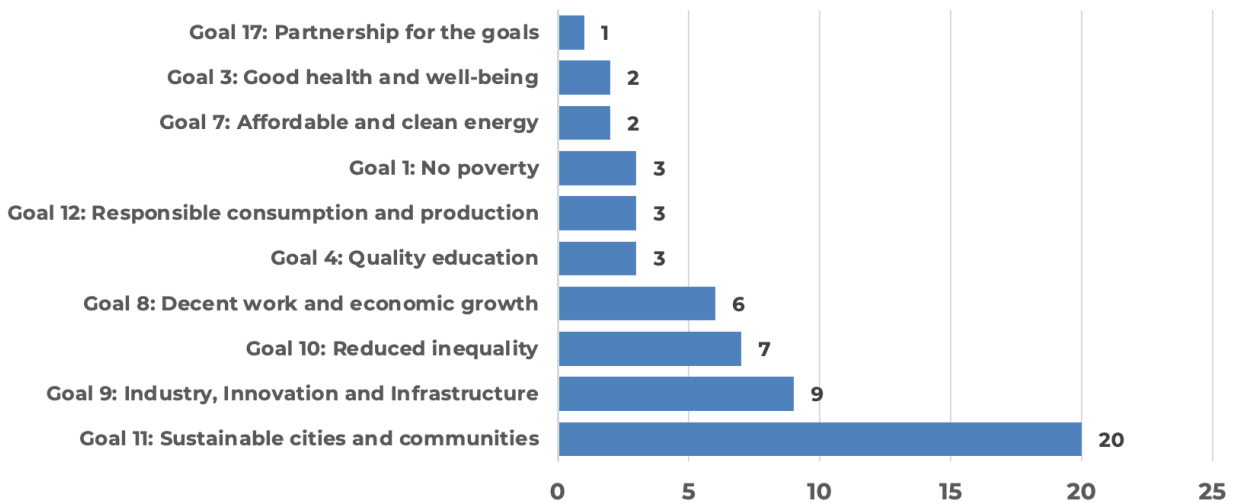

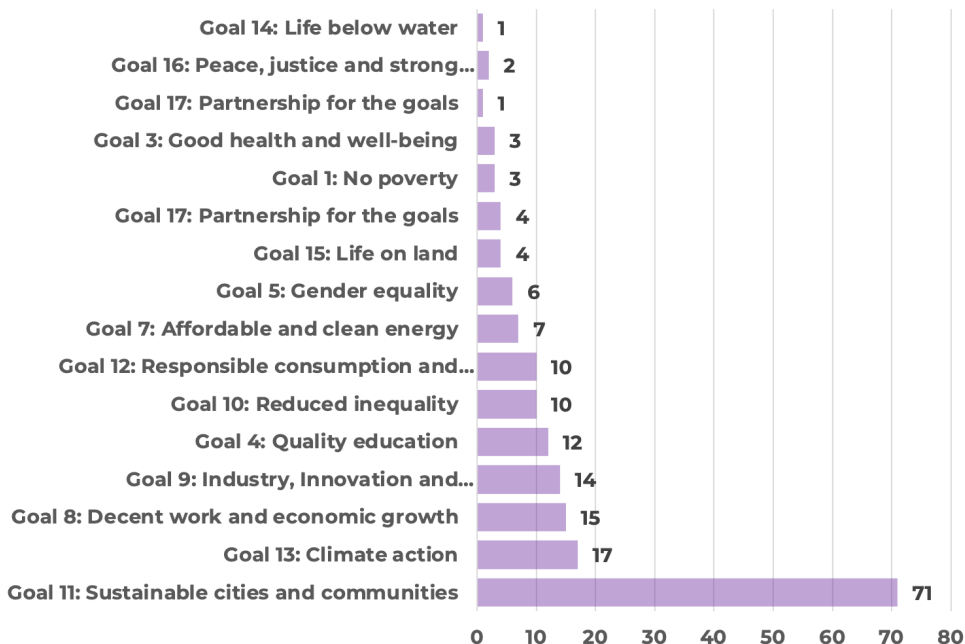

Chart 17

Publications aligned with UN Sustainable Development Goals

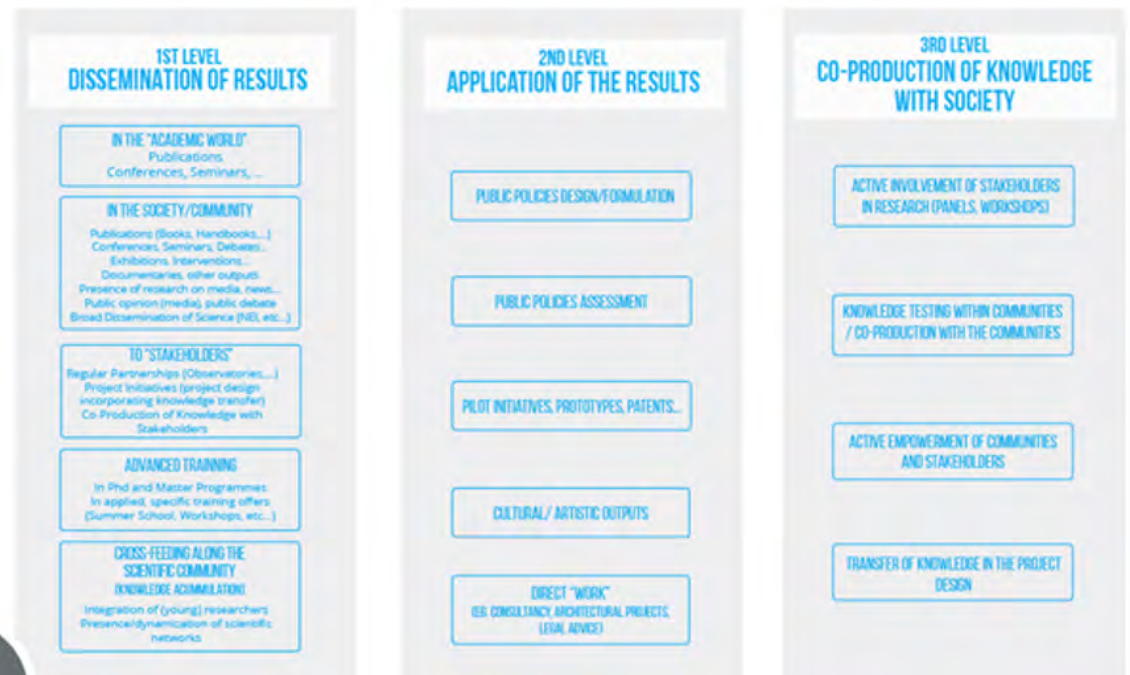

Its social impacts can be seen on 3 parallel levels (assuming the conceptual grid suggested for this effect in the document Activities 2013-18 and Strategy prepared for the last unit's evaluation process, in May 2019):

- A. Dissemination of results
- B. Application of the results
- C. Co-production of knowledge with society

Figure 3
Conceptual grid for analysing the social impacts of DC-Iscte research

SOCIAL IMPACT OF OUR RESEARCH

THE DISSEMINATION OF KNOWLEDGE AND SOCIAL IMPACTS OF OUR RESEARCH CAN BE SEEN AT 3 PARALLEL LEVELS

The activity of each of the research groups meets these three parallel levels, as the following highlights show.

RESEARCH GROUPS HIGHLIGHTS

HIGHLIGHTS

INNOVATION AND LABOR

DISSEMINATION OF RESULTS

Under the Youth Employment Observatory (YEO) - production of annual reports on unemployment, job quality and youth employment policies, production of Policy Briefs on relevant youth employment issues, participation in scientific and other events targeting a wider public, participation in the media - written press and TV and radio debates. Presentation of the results of completed projects to social actors of national and regional scope.

In the scope of research on accelerating transitions to low carbon - publication of articles in top scientific journals, book chapters, policy briefs, presentation in conferences, participation in seminars and international reference networks, leadership of international research projects.

Within the scope of research on labour market transformations, job quality, segmentation, education and skills - publication in top scientific journals, conferences and international reference networks. Dissemination also involves national and international books to publish findings of the projects completed in 2022, in addition to the traditional publication types of the Labour group. The press, TV and radio continue to be a crucial channel of dissemination.

APPLICATION OF THE RESULTS

Within the scope of the (YEO - Participation in the White Paper *More and Better Jobs for Young People*, under the High Patronage of the President of the Republic; participation in local employment initiatives and involvement with entities dedicated to youth entrepreneurship and employability.

Articles in the press to alert public opinion and public decision-makers to the consequences of the digital and ecological transition on work and employment.

As regards research on sustainable transformative transitions, we were part of the collective work *101 Voices for Sustainability* by Iscte Executive Education, with an introductory note by the UN Secretary-General.

INNOVATION AND LABOR

CO-PRODUCTION OF KNOWLEDGE WITH SOCIETY

Within the scope of the YEO - preparation of intervention mechanisms with entities related to youth employability. There is an interest on the part of DYPALL, the Ministry of Labour and Social Security and other entities linked to youth issues to collaborate with YEO for studies and design of initiatives that aim to improve the situation of young people in the labour market.

Regarding the work on sustainability transitions, a final conference was held with government members, companies, academics and other stakeholders, which served to launch an online directory of companies operating in the area of marine energy in Portugal and a policy brief that summarizes the main lessons of the OceanTrans project.

CITIES AND TERRITORIES CT

DISSEMINATION OF RESULTS

Besides dissemination of results in multiple international/national academic events, the CT group has been (co-)organizing during 2022 4 medium-large international conferences (“Having a Voice: Peripheries and participation at the heart of cultural policies”, “II International Congress on Colonial and Postcolonial Landscapes: Architecture, Colonialism and War”, “HINTS - Heritage Inclusive Tourism Symposium”, “KISMIF 2022”), as well as multiple national/local seminar and events.

The research of this group in some key areas (e.g., Housing, Culture) was broadly disseminated through the 2022 annual report on “Estado da Nação e as Políticas Públicas”, initiative of IPPS-Iscte.

Several researchers were an assiduous presence in media and public space, namely in the discussion of pressing current territorial issues such as housing dynamics, urban agriculture or participatory processes (e.g., Sandra Marques Pereira, Alexandra Paio, António Brito Guterres or Teresa Marat-Mendes), and many other participated in specific events and discussion moments in multiple institutions throughout the city and the country.

Various exhibitions in important national cultural institutions (Fundação Marques da Silva, MAAT, Museu de Lisboa, CCB, etc.) were based on the work and disseminated research conducted in the scope of this group’s activity.

The annual seminar events related to the two main PhD programmes related to this RG (Colóquio Território Metropolitanos Contemporâneos, at CIUL, and Jornadas de Estudos Urbanos, at Iscte), are important moments of sharing of the results of students’ work with the community in general.

Several ongoing (and recently concluded) projects in this RG, by their own nature, are directly focused on the design, monitoring and/or evaluation of public policies, including, for example, at national policies level, the ICA project (assessment of previous cinema/audiovisual sector policy and collaboration in the definition of new strategy), or at municipal level, the projects to the city councils of Cascais (on ageing strategy), Oeiras (on cultural strategy) or Loures (on social inclusion strategy). At European policies level, several projects (Re-Dwell, Stronger Peripheries, ESPON Covid) are generating policy guidelines and public policies recommendations.

Two toolkits have been developed for cultural institutions (an audiences analysis toolkit, and another one for analysing the quality of participation in cultural activities), both under the Stronger Peripheries project, which are being tested and used by various cultural institutions throughout Southern Europe and the Balkans.

A tool for self-assessment of impacts of cultural activities (and assessment of the activity of cultural and creative tourism organizations) has been developed and made available (on the Culture.Impacts.DIY platform), which is available for free use by agents in the sector, in Portugal and abroad.

Another tool has also been developed and made available for monitoring and evaluation of territorial impacts of public policies, through Impact-WEB-SIG platform.

APPLICATION OF THE RESULTS

CITIES AND TERRITORIES CT

CO-PRODUCTION OF KNOWLEDGE WITH SOCIETY

Most of the projects conducted in this RG have in its design the concern with the co-production and validation of knowledge with the stakeholders and communities involved in those projects, as well as the empowerment of those stakeholders and transferring of knowledge (e.g., Stronger Peripheries or ARTEMREDE-Impacts, co-produced toolkits for use of stakeholders and artistic communities and city councils).

In general, policy-oriented projects (e.g., Estratégia ICA, Cascais-Envelhecimento, Oeiras-Cultura, Loures-Ol Comunidades Desfavorecidas) as strategic plans, involve from their initial design the actors and stakeholders both in the diagnosis of the reality as well as in the definition of strategic guidelines and action plans.

Several collective projects (e.g., Re-Dwell, Stronger Peripheries) as well as many ongoing individual PhD thesis in this group deal with the reflexivity on the concept and practices of participation, in several domains (political, urban, artistic, social), and therefore by their nature have an important role in knowledge transfer and co-production with communities, policy makers and other stakeholders.

Several ongoing projects (e.g., BipZip participations, or collaborations in the scope of Bairros Saudáveis Programme) are direct participative experiences, in which the research teams assume their role in a collective territorial endeavor, naturally co-producing and transferring knowledge with communities and empowering those communities and themselves in the process.

HIGHLIGHTS

GOVERNANCE, ECONOMY AND CITIZENRY **GEC**

DISSEMINATION OF RESULTS

The main vehicles for the dissemination of the results of research carried out by GEC researchers have been their publications in scientific journals, as well as in public magazines and newspapers, their participation in scientific conferences and colloquia, as well as in events for the general public. Also, GEC researchers have been involved in teaching in several Master and PhD programmes of Iscte and of other universities.

APPLICATION OF THE RESULTS

Protocol established with Novo Dia - Associação para a Inclusão Social. Consultancy, namely, in the context of the project "À MARGEM - Trajetórias de Vida de Rua" (in terms of the report of the study on the situation of homeless people in the Azores, developed by Associação Novo Dia and financed by the Regional Government of Azores, and of the seminar "À Margem: A Condição de Sem Abrigo nos Açores", June, 30 and July, 1).

CO-PRODUCTION OF KNOWLEDGE WITH SOCIETY

The seminar "Novas Formas de Viver. Os desafios das cooperativas de habitação de propriedade colectiva" brought together a variety of social actors from different proveniences - central and local government, cooperatives, academia - to discuss housing provision and cooperatives in a cost where the access to affordable housing is critical (November, 23).

One of the specific objectives set by DC-Iscte was to reach wider audiences and overall society, both by the active involvement of stakeholders and civil society in the projects' communication design and by improving communication of research results to non-academic audiences. In this sense, the development of initiatives to promote scientific culture has been one of the Unit's main concerns. It is in this framework that fits its regular participation in the European Researchers' Night or in the Summer with Science.

In 2022, DC-Iscte participated in the European Researchers' Night with the activity "Insta-P: Follow the Cultural Heritage", which consisted of a photographic walk, through a previously defined circuit, in the area surrounding the National Museum of Natural History and Science, to show some examples of the cultural heritage existing there and promoting a critical look on them. As a result of a partnership with the Misericórdia Parish Council, the activity included the participation of a group of young people from the Intervir Project. It sought to contribute to raising the awareness of young people about the importance of cultural heritage, stimulating them to explore and better understand the diversity of heritage in this area of Lisbon and its importance for the future, to enable them to actively participate in its safeguarding and transmission. The activity was coordinated by the researcher Rolando Volzone and also counted with the participation of researchers Ana Oliveira, Carla Duarte, Elisabete Tomaz and Sebastiano Raimondo.

Considering Summer with Science, in 2022, DC-Iscte was granted with this special support, through a total budget of 5347.32 euros. The funding, by hiring 11 research initiation grant holders for a period of one month, aimed, on the one hand, at enhancing scientific and technological capacity within R&D units; on the other, at strengthening the relationship with higher education and society. Fellows have been integrated into two on-going international projects: "Franciscan Landscapes: the Observance between Italy, Portugal and Spain (F-Atlas Project)", and "COST ACTION CA18214 - The geography of New Workspaces and the impact on the Periphery".
